Kathy Wittmann (wtextile@fdn.com) writes:

Dear Sir: The appropriate use of IP Relay Service is being abused by foreigners that have a computer. We had an abusive number of call from Africa that were using computers (around 50 within a short time). We never received a call from a deaf person. The technology needs to be restricted to just the USA and only the deaf people!!! It takes a long time for a business to distinguish between an abusive phone call and a person in need. We want to comply, but you need to do something to prevent the abuse. The scam artists have already jumped on this avenue to a point of abuse. Thanks so much,

Kathy Wittmann
